

Quick rules to play the game for the challenge

November 2023

Quick Rules to Learn How to Play in 2 minutes

This is a **detective game** where you have a case to solve.

There are 3 different types of cards in the game:

1. Locations
2. Characters
3. Evidence / Special Items

Everything depends on the **Location** where you are. To go to a location, scan the location card. The first thing you should do for this challenge is scan the *City* location, because that's where Pico le Croco lives.

Once you have arrived in a location, you can:

- **Interrogate characters**
- In some cases, you may also **Search the location**.

Search the location

When this is possible, a button "Search the Scene" is available from the location. You then view a 3D picture, memorize items you'd typically like to inspect.

After a while, the search ends and you can scan the items you saw. There isn't a card for exactly every possible item, select a card which matches. For example, if you saw a T-shirt, scan the card marked "clothes" (vetements).

You lose time if you scan items which are not in the room.

Interrogate a character

You must be in a location where the character is! :) To begin interrogation, scan the card of the character to interrogate.

You can interrogate a character on:

- Another character. Within the interrogation mode, scan the card of the other character.

- An item / evidence. Scan its card.

You *cannot* interrogate a character on a *location*: that would make you travel to that location.

Don't ask silly questions: if you ask a character about something s/he has no way of knowing, you just lose time.

Note: the challenge does not use the *Forensic Contact Boards* (Hacker, Medical Doctor etc).

Finishing the game

Once you have found enough information to solve the case, usually the game starts suggesting that you “solve the case”, which means ending the game.

Click on the button, and solve the case. For Ph0wn CTF, you have probably got the flag. Before you leave, please:

- Put away all cards in their box
- Do not mix cards between boxes
